EXPERIENCE

- Senior Front-end Developer** 2024 - Present
Booth & Partners | Taguig
 - **Collaborated with UX designers and cross-functional teams** to translate website visions and designs into functional, high-quality code
 - **Maintained front-end applications**, including package updates and content management.
 - **Implemented an observability platform** to monitor web performance and track errors, improving issue resolution speed.
 - **Developed custom Shopify applications** for internal business needs.
 - **Collaborates with backend developers** for front-end API integrations
- Cloud Developer II** 2021 - 2024
eCloudvalley Digital Technology | Taguig
 - **Set the standards for front-end development** as a Cloud Developer that specializes in front-end development in the team.
 - Handled the **translation of UI/UX design into front-end development** and the API integrations with the backend developers of the team.
 - Built a **Front-end boilerplate** using **Vue + Nuxt + TailwindCSS + Quasar** to kick-start the frontend setup activities of the projects.
 - **Successfully delivered more than 10 projects** including the internal projects of the company utilizing the boilerplate built.
 - Consistently entrusted with multiple concurrent projects due to recognized expertise in frontend development.
- Web Developer** 2019 - 2021
Ximex Delivery Express Inc | Alabang
 - Developed and maintained company IT systems
 - Enhanced the Rubix Track and Trace platform with React.js and Ant Design
 - Built new applications like the Express Box warehouse system and Payslip Automation tool using React, Laravel, and Lumen
 - Contributed to server management and migration efforts.
- Web Developer** 2018 - 2019
Appsilog Inc. | Alabang
 - Developed APIs for mobile applications using PHP.
 - Maintained and updated client systems using PHP CodeIgniter (backend) and Vue.js (frontend).
 - Managed client requests and resolved system issues efficiently.
